

# BPA TRAINING FOR CRIME SCENE PROFESSIONALS

**1 DAY COURSE**

**26, 27, 28, 29, 30  
OCT 2026**

**UK RESILIENCE ACADEMY  
NR YORK**

# PRACTICAL TRAINING

Our **1-day practical BPA Training for Crime Scene Professionals** provides participants with a complete package of BPA training relevant to their role.

- Build an understanding of the contribution that Blood Pattern Analysis can offer to a police investigation
- Maximise the potential of BPA at blood scenes
- Identify when to call in a specialist
- Optimise the value of BPA in cases where the instruction of an external expert is not possible.

Training includes an introduction to Blood Pattern Analysis, how to record BPA effectively, how to implement a BPA sampling strategy, and discusses the value BPA can bring to an investigation through a series of classroom-based and practical sessions.

The course is delivered by Jo Millington, a leading BPA scientist with over 25 years' experience and the Spatter/ED team.

The core training areas are:

- **Bloodstain Pattern Classification**
- **Blood Dynamics**
- **Bloodstain Formation**
- **Documenting BPA**
- **BPA Sampling Strategy**
- **Scientific Approach to BPA**
- **Practical sessions**

A *certificate of attendance* is issued following successful completion of the course.

**Lead Instructor: Jo Millington**

### RECENT PARTICIPANT FEEDBACK

Great to have such a varied group of participants, with different levels of experience and from different police agencies.

Professional training at its best - all relevant to my job.

All relevant to CSIs - highly recommended.

Really enjoyed the practicals - clear demonstration of what I need to sample and look for at a scene, and very engaging.

Extremely interesting and stimulating course, delivered by instructors who are at the top of their game. A career highlight.

Really helpful training course - not only in identifying when I need to call a BPA expert but also explaining what I need to do at scenes if an expert isn't called out.
