

BPA TRAINING PROSPECTUS

UK COURSES 2025

BPA TRAINING FOR CSI 15 OR 16 MAY 2025 1-DAY COURSE / NEAR YORK, UK

This 1-day practical BPA Training Course is aimed at Crime Scene Professionals but is open to others who encounter BPA in their role. Through this training students will:

- Build an understanding of the contribution that BPA can offer to a police investigation.
- Learn how to maximise the potential of BPA at blood scenes.
- Identify when to call in a specialist.
- Optimise the value of BPA in cases where the instruction of an external expert is not possible.

Training includes an introduction to BPA, how to record blood patterns effectively, how to implement a BPA sampling strategy, and discusses the value BPA can bring to an investigation through a series of classroom-based and practical sessions. Animal-derived blood is used during the training session.

Instructors: Jo Millington & Gillian Leak

BASIC BPA TRAINING **19-23 MAY 2025** 40-HOUR COURSE / NEAR YORK, UK

This week-long residential training course focusses on the **BASIC APPLICATION OF BPA**. and is suitable for Forensic Scientists, Law Enforcement Personnel, Crime Scene Investigators, Laboratory Practitioners and other individuals aligned with BPA in the laboratory or at crimes scenes. The course uses classroom-based and practical (wet-blood) sessions, including simulated-assault scenarios, to provide participants with a knowledge base that will underpin the robust assessment of bloodstain patterns at crime scenes and on items examined in the laboratory. It meets the educational standards as defined by the IABPA and successful participants are able to apply for industry-standard professional membership.

Instructors: Jo Millington & Gillian Leak

Our **INTRODUCTION TO BPA** course is available ONLINE, 24 hours a day, 365 days a year.

This course enables participants to learn more about the world of BPA and explains the foundations behind the science. It is particularly suitable for forensic scientists, pathologists, medical personnel, police officers, crime scene personnel, judges, solicitors, barristers, academics and other interested parties.

Discounts are available for groups and students. **Please get in touch with us to discuss your requirements.**

RECENT PARTICIPANT FEEDBACK

SPATTERED
BPA Training & Education

“

It is obvious that this course is built on years of BPA experience.

It was a privilege to be part of it and I feel like everyone should have the opportunity to experience it.

Jo & Gillian are a superb double-act!

BPA Training & Education

“

Using real case scenarios helped us to understand the value of BPA in an investigation, and learning how to design a BPA sampling strategy was invaluable.
